**i. About CI and our programs.** CI is an accelerated learning provider offering immersive, in-person programs that combine practical work experience-based training with cohort-based career workshops and seminars.

One-page overview: Download printable [2018 Notice Board Flyer](#).

In detail: Review sample [2018 Student Handbook](#).

CI creates globally engaged, career-ready students. Upon college graduation, CI alumni get hired three-times faster and earn 30 percent more than their graduate peers.

**ii. Educator partnerships.** Most students find us on their own. Our newly formed academic partnership initiative invites educators, at a departmental, school or college-wide level, to become part of the conversation and decision-making process

when their students engage with CI.

Academic partners receive access to student application and outcome reporting, a dedicated point of contact with CI's Student Experience team to assist with student enquiries and guaranteed application acceptance for their students.

Review our [Academic Partnership Guide](#) or [schedule a call](#) with our Student Experience team.

Please note we will be accepting new academic partner requests for the 2017/18 season until Friday 24<sup>th</sup> November 2017.

**iii. Email distribution list management:** Our communications to educators provide advanced notice about CI programs for students and recent graduates, including application deadlines and scholarship opportunities. We typically send no more than eight communications to our academic faculty and support staff contacts each year.
