TOPICS OF MASTER'S DIPLOMA THESIS RA 2021/2022

1. Piotrowo Campus. Gastronomy and coworking facilities with the concept of the development of the Warta riverfront.
2. Szwajcarska Street's Hospital. Extension of the existing hospital - a stay block / diagnostic and procedure block.
3. Lutycka, Juraszów, Witosa Streets. Service development with a leading therapeutic or medical function.
4. Concept for the development of a fragment of the Wierzbak valley between the Bonin and Winiary estates.

Materials for the above-mentioned topics will be posted on the ekursy.put.poznan.pl platform

The student may choose own topic after obtaining the consent of the thesis supervisor under the following conditions:

- Own topic of the master's thesis should take up current problems related to architectural and urban design. The location should allow for easy access to the study area and for the necessary pre-design analyzes (location in Poland).
- The Student should (together with the thematic card) submit a declaration that he has all the necessary data and starting materials allowing him to start the project work and that the selection of the thesis topic from outside the list will not delay the deadline for submitting the diploma thesis (30.06 2022)
- Own subject of the master's thesis in the area outside Poland requires additional consent of the Dean of the FA PUT. Topics outside Poland should only concern open international architectural competitions, the scope of which and competition materials are consistent with the scope of the master's diploma, and the deadline for resolving the competition is the same as the deadline for submitting the master's thesis or later.
