

# **BIO LAB “Mycelium Metamorphosis” – Biomaterials Laboratory Regulations**

## **§1 General Provisions**

The BIO LAB “Mycelium Metamorphosis” Biomaterials Laboratory is a specialized facility intended for work with biomaterials, conducted as part of educational and research activities.

These regulations apply to all users of the laboratory, including supervisors, students, guests, and individuals conducting classes and workshops.

## **§2 Rules for Using the Laboratory**

The laboratory is not generally accessible to students.

Students may use the laboratory only under the direct supervision of the instructor or an authorized person.

Access to the laboratory is permitted only with the consent of the person responsible for it.

It is strictly forbidden to remain in the laboratory or use any equipment without prior training and supervision.

## **§3 Laboratory Equipment**

The laboratory contains the following equipment:

- precision scale
- food processor
- refrigerator
- food dehydrator

Each device may be used only for its intended purpose and under the instructor's supervision.

## **§4 Safety and Hygiene Rules**

Every laboratory user is required to follow the rules of occupational safety and hygiene.

Before starting work, each user must:

- a. read the operating instructions for the equipment,
- b. wear appropriate protective clothing (laboratory coat, gloves, and, if necessary, a protective mask),
- c. check the technical condition of the equipment being used.

Eating or drinking in the laboratory is prohibited, as is the use of open flames, unless required by a supervised procedure.

In the event of equipment failure or an accident, the instructor must be notified immediately.

## **§5 Responsibility and Order**

Laboratory users are materially responsible for the equipment, tools, and materials entrusted to them.

After completing work, users are required to:

- a. clean and organize their workstation,
- b. wash and secure the equipment used,
- c. dispose of waste in the designated containers according to waste segregation rules.

The user is responsible for any mess left behind or for any damage to the equipment.

## **§6 Storage of Materials**

Materials and semi-finished products may be stored in the refrigerator or in designated areas only after consulting the instructor.

All containers must be clearly labeled with the following: name and surname, date, and contents.

Unlabeled or expired materials will be disposed of without prior notice.

## **§7 Final Provisions**

Failure to comply with these regulations may result in:

- a. immediate removal from the laboratory,
- b. a ban on future use of the laboratory,
- c. referral of the matter to faculty or university authorities.

These regulations come into effect on the date of their publication and are available in printed form at the entrance to the laboratory and on the unit's website.
